Voter Registration Campaign

Background

The Office of Governmental Affairs serves as the External arm of the Student Government Association. We are tasked with advocating for students throughout all levels of government including local, state, and federal advocacy. Additionally, we aim to educate the student body on our advocacy efforts as well as how the legislative process and government overall affect their daily life and collegiate experience. Part of this is through voter registration and civic engagement / literacy. In the past, OGA and SGA have promoted civic literacy through a variety of events. We aim to transform civic literacy at Florida State University by initiating a year-round campaign to promote voter registration and civic literacy! This proposal aims to not only share our ideas for the upcoming year but to provide resources for students to become more educated citizens and voters. Some highlights of our proposal include:

- Voter Registration through integration to myFSU
- Voter Accessibility through the utilization of FSU Transportation
- Voter Education through Townhalls and Forums with Candidates

I look forward to working with you to promote civic literacy and voter registration on campus. Please see the rest of the proposal for a more detailed outline of initiatives we hope to implement. Thank you for your time while considering this proposal, and I look forward to future conversations regarding the Office of Governmental Affairs.

Best,

Evan Steinberg
