The division of Student Affairs at Frostburg State University's mission is to provide opportunities for meaningful engagement to enhance personal and professional growth within supportive and inclusive environments, transforming students into leaders prepared for our complex and changing global society. In line with this mission, the office of Civic Engagement is dedicated to fostering active citizenship and strives to build citizen leaders for the 21st century. As active citizens, students educate themselves about, and become involved in, their local, national, and global communities. Through political engagement, community organizing, and inclusivity these active citizen leaders are enabled to combat public concerns at their core and strengthen their greater community.

This commitment has been strengthened by our more recent emphasis on experiential learning. Our work has also been guided by National Campus Compact, the Corporation for National and Community Service, NASAs Civic Learning & Democratic Engagement initiative, the American Democracy Project, and the Association of American Colleges and Universities’ Liberal Education and America’s Promise (LEAP) initiative. The overarching theme of our Civic Learning and Democratic Engagement initiative is to foster informed and engaged citizen leaders within their community. Our goals are achieved through our four pillars of Civic Engagement: Democratic Engagement, Volunteerism, Service-learning, and National Service. Through these four programmatic components, we work to engage students in their community; educate them on the political process; and foster life-long involvement as citizen leaders.
